

I would like to see the stringent WI State "no-call" laws stay in place as they are. I have been blessed not to have to get dozens of calls from uninvited solicitors in my home during time that I work so hard to spend time with family. Plus, the telemarketers that I have asked to take me off the call list have been everything from huffy to downright beligerant about the request. I'd just as well block them from calling in the first place. The law has helped my sanity!! Tara Jones, Thankful Wisconsin Citizen.
